

Hammad Ahmad Usmani

(646) 363-6463 — hammadus@gmail.com — linkedin.com/in/hammadus — hammad93.github.io — US Citizen

Top 1% in Python

EXPERIENCE

- **Senior AI & Machine Learning Engineer.** Lockheed Martin Space (NYC, NY) *Feb. 2021 - Sept. 2023*
 - Led the ML & data science for a search engine processing big data on AWS cloud and Domino Data Lab.
 - Implemented natural language processing to analyze big data and machine learning in Python and Spark.
 - Deployed end-to-end LLM question-answering and machine translation with Python and Java with RLHF.
 - Engineered data pipelines achieving top operational standards from NASA's Technical Readiness Level.
 - Fine-tuned neural networks and statistical models through cross-validation and hyperparameter search.
 - Integrated IBM Watson for translation, speech recognition, and vision along with Vertex AI from Google.
 - Trained and scaled question-answering models through transfer learning based on the SQuAD dataset.
 - Collaborated as lead data scientist creating machine learning models for internal and external purposes.
 - Coordinated data collection and acquisition efforts to train LLM models based on business requirements.
 - Integrated end-to-end frameworks with CI/CD, Git, Docker microservices, REST APIs, and web UIs.
 - Produced & maintained machine learning algorithms with Python, Spark, SQL, and cloud computing.
- **Machine Learning Engineer.** Moody's (NYC, NY) *Dec. 2019 - Feb. 2021*
 - Deployed machine learning model assets and LLMs for NYSE sentiment analysis and financial reporting.
 - Engineered data processing that coordinated natural language processing from international teams.
 - Solved analytics and data engineering problems on Google Cloud Platform (GCP) with BigQuery.
 - Innovated server-less and containerized solutions to deploy and scale ML models with continuous training.
 - Developed natural language processing with Python, Spark, SQL, deep learning, and language models.
 - Specialized in deep learning techniques, including RNNs, CNNs, transfer learning, and cluster analysis.
 - Improved AUC scores by 14% on recommendation problems using deep learning and ETL processes.
 - Engineered a data lake infrastructure on AWS Athena, ECS, ECR, EMR, and S3 using Scala & Python.
 - Developed automated sentiment analysis of NYSE utilizing deep learning from investors social media.
- **Machine Learning & Software Engineer.** M.I.T. (Lexington, MA) *Apr. 2018 - Dec. 2019*
 - Conducted MLOps, data processing, data science, and machine learning for advanced weather problems.
 - Innovated deployment of machine learning on the AWS cloud in realtime for a global domain.
 - Developed software to continuously monitor machine learning performance based on quality requirements.
 - Engineered solutions using Python, JavaScript, and SQL with cloud computing to operationalize AI.
 - Implemented lossless compression technique to reduce model output size by 99.2% in near real-time.
 - Collaborated on the 2018 Best Paper Award from innovations in machine learning and neural networks.
- **Data Scientist.** Simpluris (Orlando, FL) *Jan. 2017 - Apr. 2018*
 - Completed 200+ big data cases as a lead data analyst utilizing with SQL, Python, VBA, and Excel.
 - Developed natural language processing algorithms for geospatial data based on input address.
 - Produced and calculated analysis with SSRS reports using SQL and Excel for class action lawsuits.
 - Improved efficiency of API parsing algorithm by 97% from linear to logarithmic to linear growth.
 - Developed duplication detection algorithm incorporating Levenshtein Distance in Python and Scala.
- **Machine Learning Engineer.** Shaman (Orlando, FL) *Oct. 2015 - Dec. 2016*
 - Achieved multiple National Science Foundation Innovation Corps grants for IoT and big data analytics.
 - Invented algorithms with Python on deep neural networks consisting of chat capabilities for NFC tags.
 - Engineered microcontroller prototyping boards with RFID and NFC IoT functionalities in Java, C/C++.
 - Coordinated data sourcing, labeling, and acquisition from international translators for multilingual chat.

EDUCATION

- **Georgia Institute of Technology** Atlanta, GA
Master of Science in Computer Science. 2023
- **University of Central Florida** Orlando, FL
Bachelor of Science in Computer Science. 2016

CERTIFICATIONS

- **Microsoft**
Azure AI Engineer Associate 2024
- **Google**
Generative Artificial Intelligence, Machine Learning, Vertex AI 2023
- **Harvard Business School**
CORe Credential of Readiness, Certificate in Entrepreneurship Essentials 2020

OVERVIEW

- A Data Scientist & Machine Learning Engineer with advanced scientific degrees and professional experience.
- Ships end-to-end machine learning, computer vision, speech recognition, translation, and others in the cloud.

SKILLS

- **Programming Languages:** Python, Scala, Java, C/C++, SQL, Tensorflow, scikit-learn, PyTorch, CI/CD
- **Data Engineering:** Natural Language Processing, Large Language Models, RLHF, SFT, ELT, ETL
- **Cloud Computing:** AWS, Azure, DataBricks, Google Cloud, GCP, Spark, Tableau, Docker, OpenAI
